Mr. Gary Baughman
Hazardous Waste Facilities Unit Leader
Colorado Department of Health
4300 Cherry Creek Drive South
Denver, Colorado 80222-1530

Gentlemen:

Based upon discussion with your staff in a Subsurface Interim Measures/Interim Remedial Action, Soil Vapor Extraction (SVE) update meeting on April 4, 1994, we will proceed with the following items:

- Start the 6-week sustained operations on the alluvial wells to satisfy these sustained operations requirements for the SVE;
- Convert the injection well to an extraction well to improve alluvial operational efficiency during sustained operations, and;
- Re-examining the objectives of, and making a recommendation about completing, the Test No. 1 bedrock dewatering tests.
- Conduct a SVE Stand-down to analyze the Test No. 1 data, integrate Test No. 2 objectives, and discuss SVE program barriers.

Your staff was invited to the SVE Stand-down meetings. The Stand-down is scheduled for two days on April 7 and 8, 1994, at the Jeffco Airport Conference Center. Additionally, we will meet with Environmental Protection Agency and CDH staff on April 11, 1994 to present: (1) recommendation on the bedrock dewatering tests; (2) information on the 6-Phase heating for Test No. 2, and; (3) proposals for the administrative issues associated with the tests.

If you have any questions, please contact Scott Grace at 966-7199.

Sincerely,

Jessie Roberson
